File No. 28882

Ms. Ana Townsend

California Regional Water Quality Control Board - Los Angeles Region

320 W. 4th Street, Suite 200

Los Angeles, California 90013

Subject: Restart of Building 1/36 Soil Vapor Extraction System, Boeing Former C-6 Facility
19503 South Normandie, Los Angeles, CA
(File No. 95-036; SLIC No. 0410; Site ID No. 1846000)

Dear Ms. Townsend,

This letter serves as notification that Boeing Corporate Real Estate (CRE) intends to restart the Soil Vapor Extraction (SVE) system at the Building 1/36 area within Parcel C at the Former C-6 Facility in Los Angeles. We had notified you in a letter dated June 30, 2008 that the system would be shutdown in preparation for closure activities as the system appeared to meet applicable closure criteria. However, subsequent rebound monitoring activities indicated that the system is not yet ready for closure. As a result, the system will be restarted during the week of August 25, 2008. Routine monitoring and reporting will continue to be performed as it was prior to shutdown.

If you have any questions, feel free to contact the undersigned at 805-563-2426.

Sincerely,
HALEY & ALDRICH, INC.

A handwritten signature in dark ink, appearing to read "Joe Weidmann".
